

Ed Baker, General Manager, Wireless Services Inc

Mr. Baker has a diverse background that has given him knowledge in many different areas. He has attended college at the University of Pittsburgh and Clarion University where he was on the dean's list. Before coming to WSI he has been involved in general construction, demolition, and mechanics.

He has over 10 years of experience in the telecommunications field. He began his career in the industry at Wireless Services as one of the first employees. He has 6 years of industry specific, hands on experience in civil construction, electrical, and Telco. Working as a site supervisor for 5 years, directing day to day operations of on-site construction for customers such as Verizon, AT&T, Sprint, T-mobile, Voicestream, Shentel, Crown Castle, and others, have given him a great understanding of what it takes to complete difficult projects and exceed customer expectations.

He spent two years as a Project Manager for Wireless Services directing all phases of civil, electrical, and Telco construction. He has spent over two years as the General Manager for Wireless Services. He is experienced at managing installations for multiple clients in many different settings. Roof top, Co locate, Raw Land, temporary or emergency, etc.

Mr. Baker has obtained a general contractor's license for the state of West Virginia, and attended industry specific trainings on tower lighting, coaxial cable termination, fiber testing, grounding testing and installation.

Mr. Baker is married with two children and resides in Fawn Township, PA
